

Q Underwriting accept professionally installed and hardwired vehicle CCTV systems on our Single Taxi and Taxi Fleet products.

CCTV System Criteria

Systems meeting the following specification are acceptable subject to provision of a technical specification for the system fitted. A premium discount will be given provided the specification meets the following requirements:

- Forward facing camera
- Hard wired and professionally installed
- Minimum resolution HD camera 1080P
- Minimum viewing angle 170 degrees
- Night vision capability
- Continuous loop recording
- G force sensor
- GPS module
- Minimum storage capacity 32 GB micro SD card
- Date and time stamping

Evidence of Fitting

Evidence of fitting is required within 30 days of a new policy inception or renewal for our non fleet customers and within 45 days for our fleet customers. For replacement vehicles 30 days from the date of the vehicle change.
